

## **Portfolio:** Control System Integrator

**WiROMATiC:** (Registered Partnership Firm) GSTN 27AAHFH0186R1ZS

**About us:** WiROMATiC is a Control System Integrator specializing in Instrumentation and Telecommunication. We Design, Engineer and Implement Automation Systems that bridge the gap between power process and communication technologies, delivering seamless control, monitoring and connectivity for Industrial and Commercial clients. With a commitment to innovation and reliability, WiROMATiC transforms complex infrastructure into intelligent connected and efficient system – empowering industries to operate smarter, safer and more sustainably.

Our Core Expertise:

### **Electrical Control Systems:**

- Design and Integration of PLC, SCADA and DCS Systems
- Motor Control Centers (MCC), Variable Frequency Drives (VFD) and Intelligent motor control systems
- Power distribution monitoring and energy management solutions
- Process automation and real-time control panels
- Customize electrical design for industrial automation

### **Telecommunication System:**

- Integration of Fiber Optic, RF, IP managed communication networks
- Smart CCTV and Surveillance System integration
- SCADA Telemetry and remote monitoring systems
- Industrial IIoT and Data acquisition and cloud connectivity
- Communication backbone design and Data Center installation

### **Our Capabilities:**

- System Design and Engineering from concept to commissioning, WiROMATiC provides turnkey integration including hardware design, panel fabrication and software development
- PLC/ SCADA programming expertise with Siemens, Allen Bradley, Schnieder and Delta platforms
- Testing and commissioning: full lifecycle support with onsite integration and performance validation
- Cyber secure communication network with Cisco Systems: Ensuring reliable protected data flow between field devices and control systems
- Documentation and Compliances: Adherence to IEC, IEEE and ISO standards

**Our Mission:** To empower industry with smart automation and seamless connectivity, enabling Realtime decision making and efficient energy use through world class engineering

**Our Vision:** To be trusted partner in digital transformation and control integration, Shaping the future of intelligent electrical and communication infrastructure.

### **Why choose WiROMATiC:**

- Proven Experience across diverse industrial sector
- Expertise in both power and Data systems- true cross disciplinary integration
- Focus on reliability, Safety and scalability
- Agile team with end-to-end project delivery capability
- Commitment to quality, innovation and long-term client success

### **Industries we serve:**

- Power generation and Distribution
- Water and Waste water management
- Oil and Gas Petrochemical
- Manufacturing and Process Industries
- Building Automation and Infrastructure
- Transportation and Smart Cities
